Electrical Distribution in hall

These Distribution boards are on the left-hand wall upon entering room

All circuit have mcbs (miniature circuit breakers) connected to them.

ELECTRIC & WATER

Cleaning cupboard main corridor

DB3

Lights, hand dryers etc.

Heating DB for this side of hall.

Lists inside doors show details

Cold water stop tap for playgroup
side of hall only.
See next picture for other tap.

WATER STOP TAP – FOR MEETING ROOMS ETC

Unfortunately, there is an earlier stop tap for entire water supply on the left hand side of the main corridor.

It is found on the stage hidden behind wood, scenery etc.

Sliding door and stairs into
main corridor

WATER STOP TAP - YOUTH/GREEN ROOM

This stop tap is located behind the stage door on the back wall.

It controls water into the

Meeting room 3

Youth/Green room.

WATER STOP TAP AND METER FOR CHANGING ROOMS

These items are found in the cleaning cupboard situated at the far end of the corridor on the right hand side of the hall.

The stop tap is under the bottom shelf
